

**not responsive**

**Limetree Bay Terminal, USVI:** Because of the shutdown, items relating to the restart of and compliance at the Limetree Bay Terminals (LBT) facility in St. Croix, USVI, have been delayed, foremost of which are: (i) EPA's review of LBT's recently submitted Plantwide Applicability Limit (PAL) applications; (ii) EPA's deliberations relating to the Marine Loading MACT and the Refinery Sector Rule to LBT and (iii) our negotiations with LBT on modifications to the existing CAA Consent Decree. We are resuming this work.
